THE SUN BOOK SHOP.

School Supplies Our Specialty.

We have on hand Used Text Books for High School and Public School grades, to be disposed of on reasonable terms.

WE TAKE ORDERS FOR TEXT BOOKS ISSUED BY THE DEPT. OF EDUCATION; AND ALSO FOR ALL BOOKS ISSUED BY THE INSTITUTE OF APPLIED ART, EDMONTON.

Regulation' Note Book.

with Rings. Refills for same; and also Gummed Reinforcements.

Chalk.

boxes of 1 gross.
 Sanigene, Excelsio, etc., low prices.

Reeves's Paints

50c. a box. Refills for same every color.
 Reeves's Tempera Poster, Show card Colors

Exercise Books (Ink)

Prices range from 18c. for the best, to 3c.

Scribblers (Pencil)

Prices from 2c. up.

Waterman's Ink,

2-oz., pints & quarts. Also Peerless Ink, 2-oz. & pints.

India Ink

Reeves's 4-oz. 19c.

Pencils,

a large variety on hand.

Crayons

From 5c. up.

Drawing Pads

No. 1 and No. 2.

Waterman's Ink

In Quarts, Pints, 2-oz. boxes now 12c.

Engagement Announced.

Mr and Mrs Simon Witmer, of Glory Hills, announce the engagement of their daughter Fanny Alberta Witmer, to Mr William E Sheldrake, son of Mrs John Buxton Sheldrake and the late Mr Sheldrake, of London, England. The marriage is to take place in August.

To Start Re-building.

There appears to be a possibility of a start being made in the near future on a building to replace the Armbruster mill recently destroyed by fire. It appears that the insurance carried on the building and plant was not, any ways near adequate to cover the actual loss. The new building will be erected on a much smaller scale than the former one.

The New Co-op.

"The New Deal" Co-operative Store, Store No. 2, opened up in Stony last week, with Wm. Kelly in charge. Store No. 1 is in operation in Edmonton, on Jasper ave. near 96th St. It is the intention of this Co-op. outfit to establish stores in all the principal centres. It is to be noted that this Co-op. has no connection with any other co-operative organisation in this district.

"The Fourth Alarm."

The talking-picture man has changed the weeknight of his appearance in Stony Plain. He will be showing in Kelly's Hall tonight July 9th, a new picture, "The Fourth Alarm." This is said to be a very thrilling drama from real life. There also will be shown, in addition, "The Nevada Cyclone," and "Giants of the Jungle."

Card of Thanks.

Mr John Ambruster wishes to express his thanks to the people of Stony Plain and all others who assisted so well in preventing the spread of the flames at the disastrous fire which occurred at his mill the morning of June 30.

Larry Higgins Buried.

The funeral took place in Edmonton, on Friday afternoon, the 3d, of Lawrence H Higgins, a resident of Stony Plain for the past eight months, and who had been engaged in the real estate business. His death occurred at Wabamun on Tuesday, June 30th, due to carbon monoxide poisoning. He was in his 55th year.

He leaves to mourn his loss his wife; 1 daughter, Miss Eileen; 4 sons, Hollister, David, Alan, and Robert; his parents, Mr and Mrs Mr and Mrs J L Higgins, Nobiah, Minn.

Born in Minnesota, Mr Higgins lived for some time in Saskatoon and Calgary, before coming to Edmonton in 1926, to take charge of an automobile agency. In 1927 he switched to the realty business. He came into prominence in 1929, when he engineered the sale of the Macleod block.

2 EXTRA CORD PLIES

UNDER THE TREAD AT NO EXTRA COST

Get your money's worth—buy Firestone—the tire that gives you 25-40% longer life at no extra cost. Among other things, Firestone gives you 2 Extra Cord Plies under the tread for extra strength, extra safety and extra value. Worn tires are dangerous—replace them now. See the nearest Firestone Dealer today—for him equip your car with the strongest and safest of tires.

Firestone TIRES

Enormous Increases In Productivity Of Soil With New Scientific Methods

Dr. O. W. Wilcox has for some years been writing books about the new science of "Agrobiology," which makes possible enormous increases in productivity of the soil through new technical methods. Some of his predictions have been criticized by Secretary Wallace among other people, as being excessive. Striking confirmation of Dr. Wilcox's general theory now comes from California in the form of a report by Dr. W. F. Gerick, associate plant physiologist of the University of California. Dr. Gerick has been growing tomato plants fifteen feet high and tobacco twenty feet high. He has produced 217 tons of tomatoes per acre and has grown 2,465 bushels of potatoes—against 116 bushels. Many other vegetables have responded similarly, and striking results have also been achieved with flowers.

Under Dr. Gerick's method, plants are not set into the earth at all. Shallow tanks are filled with a liquid composed of some ten chemicals, all of them readily available in commerce, and this liquid is heated by electricity or otherwise. Over the tanks is spread a wire screen covered with straw, excelsior, or moss, in which the seeds are planted, thrusting their roots down into the liquid below. The growth takes place in unheated greenhouses or, in the proper season, out of doors. The products of this process are of high quality, and in the case of tobacco it is possible to avoid the riskiness that sometimes accompanies rapid growth under natural conditions. That this plan is not a toy of the laboratory is shown by the fact that tomatoes produced under Dr. Gerick's method are now being sold on the California market, at normal prices and at a commercial profit.

Forty years ago, H. G. Wells wrote a scientific romance, "The Food of the Gods," in which he predicted a development of this sort, which changed the whole structure of society. He may yet live to see his prediction come true, for possibilities of these new agricultural techniques seem almost boundless. Already we are hearing stories of an occasional scientist who is said to grow a year's supply of potatoes for a large family in a tin pan under the kitchen table. It is possible to envisage all the vegetable foods for a huge New York apartment house being produced in a small space in the roof—unless, indeed, proof became so cheap and so easy to produce that everyone moved to the country. There is as a matter of fact no special reason why we should not have skyscraper farms, on which the rows of shallow pans would be stacked one above the other to a height of a hundred or a thousand feet, and reached by elevators. What such a development would do to 5,000,000 farm families, and to the millions of other persons who get their livelihood from the present agricultural economy, is a vista as exciting as it is terrifying. Certainly, the California experiments bring us one step nearer to that famous "economy of abundance," and make it still more absurd that millions of people should continue to go hungry. —New Republic.

Taking No Chances

Soviet Doctors Invent Gas-Proof Cradles For Babies
Gas-proof cradles for babies have been invented by a group of Soviet doctors and engineers working at the Moscow Biological Chemical Institute. Each cradle consists of a bag equipped with gas filters. The bag completely encloses the child and is joined by a tube to the mask worn by the mother. Her breathing draws purified air into the child's bag as well as her own mask.

"You" was formerly the second person plural, and was used with the plural verb in addressing a king. It corresponded to the kingly we. It is called a plural "I" courtesy, but now is in common use.

British Farmers Protest

Aiding For Relief From Taxes Collected Under Queen Anne's Bounty

Farmers seeking relief from church tithes laid new demands before the British cabinet. Over a three-mile course, a procession of 5,000 farmers wound through London streets tying up traffic and creating confusion during the rush hour. The protesters carried banners directed against "Queen Anne's Bounty," the royalties which were diverted from the crown to the Church of England in 1704.

"We shear sheep, the church shears us," some banners said. "Churchmen—be sportsmen. Pay for your religion to others' read." Some in the parade were dressed in Cromwellian uniforms, many in rustic dress. Women in sunbonnets and aprons marched beside the men.

After the procession many went to the House of Commons where they sought to interview their representatives on methods to halt payment of the land tax which takes \$11,000,000 annually from English agriculturists.

Originally, for the benefit of the crown, the farmers paid the first fruits and then one-tenth of each year's produce. The queen passed the royalties to the church for the benefit of poor curates.

Spread Bubonic Plague

Says Fleas Carry Germs By Hitch-Hiking On Mice

A story about fleas that spread the dread Bubonic plague by hitch-hiking their way around the world on the furry hides of foot-loose rats was told at Vancouver by Dr. Karl F. Meyer, San Francisco, professor of bacteriology at the University of California Medical School. So great is the risk of epidemic that efforts will be made to have a corps of Canadian government inspectors stationed along the international boundary line to study the migrations of rodents into the Dominion, and begin a rat and flea survey to find any existing evidence of "imported" infection.

Addressing the western branch of the American Public Health Association, Dr. Meyer showed with motion pictures the control methods used in California a few years ago when the rats gave the plague a firm foothold on this continent. Subsequently they have transplanted the infection from California to Oregon, southern Washington, Idaho and Montana. Expressing fears that the fleas might reach British Columbia, Dr. W. W. McIntosh, medical health officer at Vancouver, said federal authorities at Ottawa should immediately institute a protective service.

Received Major Share

Biggest Part Of Advertising Is Done In Newspapers

Newspapers received the major share of national advertising expenditures in 1935, the bureau of advertising of the American Newspaper Publishers' Association announced in its annual survey. The survey, based on a study of the advertising budgets of 387 companies, shows their combined expenditures of \$231,107,948 in the three principal mediums—newspapers, magazines and chain broadcasts—were apportioned as follows:
Newspapers—\$134,440,000 or 58.2 per cent.
Magazines—\$61,943,228 or 26.8 per cent.
Chain broadcast—\$34,724,720 or 15 per cent.

Twenty-two of the 33 trade groups listed in the survey favored newspapers over the other two mediums.

One sibil being as good as another, when King Edward VIII, as the Prince of Wales, declined his signature to autograph hounds, he always explained good-naturedly that "my hand's too tired." 2158

Dairy Industry Act Amendments

Important Changes Are Made In Regulations

The regulations under the Dairy Industry Act of Canada have been revised and renumbered, and the revised regulations are now in effect. The important changes are as follows:

Formerly packages containing butter were required to bear the registered number of the factory of origin unless the package contained print butter put up under the brand or trade mark of a wholesaler or retail dealer who was not a manufacturer of butter. Under the new regulations, several methods of identification are legalized. Creamery or whey butter, cut as described in section 6, subsection (3) of the Act, if contained in a wrapper or carton, must bear on the wrapper or carton the name and address of the manufacturer, cutter, or jobber, or the name and address of the registered number of the creamery of origin, or the brand or trade mark of the wholesaler or retail dealer.

Other important changes in the regulations are in connection with standards for grades of butter. Provision is made whereby butter containing more than two per cent. of salt will be placed in second grade, unless the butter is destined for a purchaser who requests over two per cent. of salt.

First grade certificates issued for butter containing more than two per cent. of salt must bear the following notation—"As butter for which this certificate is issued contains more than two per cent. salt and is represented as being for trade requiring more than two per cent. salt, a first grade certificate has been issued. This certificate is not valid for sale of the butter for either export or domestic trade except to a purchaser requesting a salt content of more than two per cent."

Heretofore, the showing of dates of manufacture on packages containing butter has been optional for domestic trade but compulsory for export. Under the revised regulations, all packages containing butter submitted for grading must bear the date of the manufacture of the butter. Copies of the complete text of the regulations may be obtained upon application to the Dairy and Cold Storage Commissioner, Dominion Department of Agriculture, Ottawa.

More Humane Trap

Has Been Designed To Replace Vicious Steel-Jawed Type

A flat chain trap which will replace the vicious steel-jawed type has been invented by Vernon Bailey, veteran naturalist and employee of the U.S. Biological Survey.

The trap has been designed in three sizes and will catch anything from a barn owl to a grizzly bear without hurting its prey, according to Bailey. To support his claims before an audience, Bailey placed his finger in the trap.

Canadian Commemorative Stamp Attracts Attention To Vastness Of Dominion

Facts About Wheat

Largest Wheat-Flour Exporting Countries Are Canada, U.S. And Australia

Canada's best market for wheat-flour is the British Isles; Australia's is the Far East. Wheat-flour exports from the United States are fairly well distributed throughout the world, but Japan's market for wheat-flour is confined to the Far East.

Production of wheat in India has often surpassed that of Canada, but India exports only a small proportion of her total output.

In 1928 the three largest wheat-flour exporting countries in the world were, in the order of their importance, the United States, Canada, and Australia. In 1935 this order was reversed, Australia, Canada, and the United States, consequently on the 28 per cent. shrinkage of U.S. exports and the steady growth of Australian exports after 1930.

Russia has been a most uncertain factor in the world cereal situation, suddenly appearing as a larger exporter of wheat, barley and oats in 1930, and again in 1931, and then relapsing into a position of minor importance.

Except for two years between 1928 and 1934, Canada was the leading supplier of wheat to the British market. In 1929, Argentina, and in 1931, Russia, were at the head of the list.

In 1935 Canada supplied 70 per cent. of the wheat-flour imported by the British Isles. Australia, Italy, and France increased their exports of wheat-flour to the British market, but those of the United States and Argentina have declined.

Will Have Talkie Teachers

South African Schools To Be Provided With Films

Schools of South Africa are to have "talkie teachers" this year. Details of the plan are being completed by officials of the Union Education Department. Special positions are being created for the experts to carry out the new system. The films to be shown will not be for any specific subject; but will embrace the entire curriculum. They will be obtained from different countries. There will be films which have been graded for universities, films for high schools and those for primary schools. As soon as the project is working on a sound basis, it is understood, there is a distinct possibility that some of the films required for the schools will be produced in South Africa. Private enterprises is also expected to take a part in the making of the films in the Union.

Of all the postage stamps issued throughout the world since 1940, there is no single adhesive that is more interesting and more instructive than the special delivery designed by the Canadian government for the commemoration of the Confederation of 1867, says a writer in the New York World-Telegram. A complete set of stamps was issued in 1927, ranging in value from one cent to twelve cents, but it is the supplementary special delivery stamp that tells us so much about the country north of the United States.

The stamp as a whole represents the very spirit of Canada, for it embraces in its design five methods of transporting mail against a background of one of the greatest mountains in existence, viewed through a frame taken from a Gothic casement.

If we take the centre vignette and examine it carefully, we are faced with a visual demonstration of the country's vastness, for a land that employs these five dissimilar methods of mail transportation must indeed be great. In the foreground we see a horseman, racing across the prairie, representing the post riders who still deliver mail to scattered residents. It is interesting to note that the words "Canadian Mail" may be discerned in the post bag of this horseman. It is the smallest bit of engraving ever attempted on a postage stamp.

Just in front of the horseman there are the rails of steel over which is thundering a swift train. Beyond the train may be seen a dog-sled unloading through banks and drifts of snow. This is, in many parts of Canada, still the only way which letters and packages can be delivered and primitive though it may seem, it is practical and serviceable.

Further to the right is depicted ocean liners, for the coast of Canada is that her ports on both the Atlantic and Pacific are visited by liners from every foreign country in the world to bring and take away millions of dollars' worth of merchandise each year.

Roaring high above these other four methods of transportation is one of Canada's air-liners, for although she is so vast in territorial expanse, Canada has adopted every modern invention and has always been closely linked with those of our own country.

The background for this pageant of mail expedition is gracious Mount Asinibolton, the North American Matterhorn, one of the most impressive peaks in all America. The mountain itself stands about 45 miles southwest of Banff, in Kootenay National Park.

The delicate frame work which encases the entire vignette is taken from a window in the House of Parliament in Ottawa. For the Canadian people are conscious of the value of art. The words "Special" and "Excess" are evidence of the democracy of the Dominion, for, although under the English flag, the French inhabitants of the eastern provinces still retain their mother language; postage stamps and money are inscribed in their tongue for their convenience.

An Improved Speech

Lord Loughborough Had Nothing But Praise For Reporter

The complaint of the politician who finds his speech inaccurately reported by the press is generally long and bitter. Not so with Lord Loughborough.

Asked on one occasion whether he had really delivered a speech credited to him by a newspaper, Lord Loughborough replied: "Why, to be sure the press is generally long and bitter. Not so with Lord Loughborough. I have many more which I wish I had said." —Christian Science Monitor.

Visitor—"What an innocent-looking face you have! Little girl has?" Mother—"T. baby," replied it. Dorthy what have you been doing.

Take "Time Out" To Stitch These!

PATTERN 5549

Take "Time out" to stitch these adorable pupes, and you'll be well rewarded, for your family will be vying for their ownership long before pillow-top or picture is completed. Do these "doggie" likenesses in easy 8-to-the-inch cross stitch—a child could do it—using floss in soft tans and greys, with a bit of black floss to emphasize the twinkle in those mischievous eyes!

In pattern 5549 you will find a transfer pattern of these dogs 12x12 1/2 inches. To obtain this pattern send 30 cents in stamps or coin (cash preferred) to Household Arts Dept., Winniepee Newspaper Union, 115 McDermott Ave. E., Winnipeg.

There is an Alice Brooks pattern book published

WORLD HAPPENINGS BRIEFLY TOLD

Soviet Russia's blond "parachute beauty", Nadejda Babushkina, 20, died at Toshkade of injuries received in a jump.

An angry crowd of 3,000 stoned the automobile of Sir Oswald Mosely, leader of the British Fascist party, and smashed windows at the Fascist club at Hulme.

Even district court judges are not immune from court summonses. His Honor Judge Laidlaw, Dubuc of Edmonton got one. He had failed to take out a license for his dog.

Robert A. Merritt, Jr., Winnipeg, was elected commander of the American Legion in Canada for the coming year, at the business session of a one-day convention in Wytheville, Ont.

University of Manitoba students may study the Norse language and literature in future years. Addition of this course to the curriculum in the faculty of arts and science has been announced.

Rev. Brother Henry of the congregation of Christian Brothers, who started his 50 years of teaching at St. Brigid's, Ottawa, in 1886, died in Montreal at the age of 68. He had taught in Toronto and Yorkton, Sask., during his career.

The board of railway commissioners published a judgment granting application of the Brandon, Saskatchewan and Hudson Bay Railway company for permission to abandon operation of its line from Morden, Man., to the international boundary.

Three Saskatchewan nurses and one each from Alberta and Manitoba are listed among those who passed the May examination for nurse registration in Ontario, as required by the department of health. Saskatchewan nurses are Frances M. Adams, Estey; Mae Brunelle and Julia Corkery, LaFleche.

Consideration For Workers

General Foods Gives Annual Vacations With Pay To Hourly-Rated Employees

Factory employees of General Foods in 31 plants in various parts of Canada and the United States, will enjoy from one to two weeks' vacations with pay this summer.

General Foods employees who have completed two years but less than five years of continuous service by July 1 of each year, and who have a record of regular attendance during the preceding calendar year, will get a week's vacation with pay during the current calendar year. Employees who have completed five years or more of continuous service will receive two weeks' vacation with pay.

The decision to reward General Foods' hourly-rated employees was made by the food company's plant managers. Announcement of the vacation plan was made by R. E. McIntosh, Vice-President, General Foods, Limited, Toronto.

"The purpose of this plan," Mr. McIntosh said, "is to provide annual vacations with pay for hourly-rated employees. It is a recognition of continuous service and regular attendance and of the value of a period of recreation from routine duties."

"Vacations with pay for factory employees is not an innovation in General Foods," Mr. McIntosh explained. "It has been the practice for many years in some units of the corporation to give vacations with pay on a limited basis. The newly announced program is a further step in a long established industrial relation policy of the corporation. It will liberalize the existing vacation plan and make vacations with pay available to all General Foods factory employees with two years of service."

Two years ago General Foods provided its employees with an old age retirement plan. A group insurance program, supported in part by the corporation, also is in force.

During the depression the corporation maintained a high average of employment, and since then General Foods has increased employment to what is now the highest in its history.

"Shorty", a mongrel dog, earns \$35 daily for his master by playing "fox" parts in moving pictures. Real trained foxes earn only a third as much.

A contemporary defines an amateur gardener as one who makes his beds and then lies about them.

British Aviation

Huge Sums To Be Spent In Developing Air Craft

The greatest financial year in Britain's history of aviation is just starting. Between now and next April more than \$12,500,000 will be spent on aviation alone.

Work, for the right man, is to be had for the asking. There are not enough men to fill the positions vacant. Every pilot with the right licenses has a post, every workman with skilled experience is drawing overtime pay, every designer with ideas is busy at a drawing board.

The largest order for civil aircraft ever placed has been gained for the new Imperial Airways machines—craft that will span the Atlantic, halve times on the empire lanes.

More than 2,000 men are at work in the Rochester works of Short Brothers, finishing the first batch of flying boats for this order. Another 3,500 are making the engines for them. Hundreds more are making the land planes for this order at Armstrong-Whitworths. The order amounts to \$10,000,000.

The government is spending \$90,000,000 on the Royal Air Force expansion scheme. Every aircraft factory in the country is working to maximum capacity on this order. No more orders are being taken.

Settle Child Actor's Case

End Dispute Over Custody And Earnings Of Freddie Bartholomew

Judge Harry Archibald has approved an agreement ending the family dispute over the custody and earnings of Freddie Bartholomew, child screen actor.

The agreement gave the custody of the 12-year-old star to his aunt, Mylicent Mary Bartholomew, who has piloted his screen career from its beginning.

The boy's parents, Cecil Llewellyn Bartholomew and Lillian May Bartholomew, were awarded the right to visit him as often as they cared so long as this did not interfere with his movie work.

The Union Bank and Trust Company was named as guardian of Freddie's estate and his earnings—officially estimated at \$1,250 weekly—were ordered distributed as follows:

Ten per cent. to the father, five per cent. each to his minor sons, Eileen and Hilma, and the remainder to his own estate.

From the estate the expenses of the boy actor and his aunt will be paid. The residue will go towards building a fund for his education and future needs.

Less than 700,000 domestic servants in the United States live under the same roof with their employers.

Wider Markets

Says U.S. Policy Of Economic Isolation Will Never Bring Prosperity

What the United States needs is a complete readjustment of the economic policy we have pursued since the World War; wider markets for our own and our customers' goods, a wider field of endeavor for labor, a way found by which our foreign debtors can gradually liquidate their obligations to us. The policy of economic isolation if protracted for a million years could not in that time return work and prosperity to the people of the United States.

Under a policy of economic isolation, even if a man makes a profit more and more of that profit will have to be contributed to the government to provide subsistence for the unemployed. Under this policy we make it necessary for those who are working to support those who are not. The more trade we have the greater our prosperity and correspondingly less the tax burden. Less trade, less prosperity and higher taxes—Senator Tydings of Maryland.

Mineral And Vitamins

Doctor Lists Things Every Child Should Eat Daily

What every child should eat daily to preserve the body's supply of minerals and vitamins was listed by Dr. F. F. Tisdall of Toronto, at the Canadian Medical Association convention held in Victoria.

Dr. Tisdall specified from 25 to 30 ounces of milk, including milk used in cooking, which should be about one third of the total; and meat in reasonable quantities; at least two vegetables besides potatoes, and some fruit or raw vegetable.

If the human body was getting enough mineral and vitamins, more would do no good.

Home Away From Home

Glasgow Prisons Are Made Comfortable For Favored Few

Prisons of Glasgow, Scotland, are to be just like a home away from home to a favored class of law breakers. The city will spend \$3,500 in making cells more comfortable with blankets, pillow slips, bolsters, rubber mattresses, collapsible tables and chair and other conveniences. Drunks will not be permitted to use them. Recently questions were raised in Parliament about the treatment of persons awaiting trial.

King Edward has sent to the local corporation at Birmingham, England, on permanent loan, the silver trowel with which he, as Prince of Wales, laid the foundation stone of the Hall of Memory.

Swagger Jacket "Takes You Places"

Household Arts by Alice Brooks

Summary Crochet Completes Every Ensemble

PATTERN 5653

A baby swagger, the smartest coat fashion of the season, is especially smart when done in crochet. Work one for yourself, of string or yarn—it's mainly in a simple stitch with plain crochet for cuff and collar bands. Make yourself a plain crocheted skirt, pattern 5595, and you'll have a complete suit.

In pattern 5653 you will find complete instructions for making the swagger jacket shown in sizes 16-18 and 38-40; an illustration of it and of all the stitches needed; material requirements. Price of pattern 20.

In pattern 5593 you will find complete instructions for making the skirt shown in sizes 16-18 and 38-40; an illustration of it and of the stitches needed; material requirements. Price of pattern 20.

To obtain these patterns send 20 cents each (40 cents for both) in stamps or coin (cash preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

SUNDAY SCHOOL LESSON

JULY 12

WITNESSING UNDER PERSECUTION

Golden text: We must obey God rather than men. Acts 5:29.

Lesson: Acts 3:1-13; 1. Corinthians 12:1-25.

Devotional reading: Romans 10: 8-15.

Explanations And Comments

Peter's Cure of a Beggar's Lameness, Acts 3:1-10.

Peter Ascribes the Cure to Christ, Acts 3:11-13. An amazed crowd quickly gathered in Solomon's Porch, and Peter hastened to tell them that it was not by his own power that he had wrought this marvel, but through faith in the Prince of life the man had been made strong. This first act of healing of the apostolic age reminds us of the fact that triumph of modern surgery and medicine being wrought to-day by medical missionaries in the hospitals of eastern lands seem to be as miraculous as the picture of this restored cripple, leaping about to try the new strength in his limbs.

Peter and John Arrested, Acts 3: 17 to 4:4. Peter's preaching at this time gained so many believers for Christ that the number increased to five thousand in all. The priests, the captain of the temple, and the Sadducees came and arrested Peter and John because they proclaimed in Jesus the resurrection from the dead, it being evening and too late for a trial, they put the apostles in prison for the night.

Peter's Boldness Before the Sanhedrin, Acts 4:5-12. The next day the Sanhedrin sat in session, that great Jewish tribunal before which Jesus had been tried and pronounced guilty. It was supreme in all matters affecting the Jewish law, the priests and elders being the only penalty which they might not inflict. Annas and Caiaphas, Alexander and other great priests were present. Through his sons and sons-in-law Annas had virtually reigned as high priest in Jerusalem for fifty years, though Caiaphas was the official high priest, recognized as such by Rome. The members sat in a semicircle and before them stood the prisoners, Peter and John, and the healed man also, as a kind of accessory to the scene.

"By what power or in what name have ye done this?" they questioned the prisoners.

Peter, now filled with the Holy Spirit, answered his enemies. "Ye rulers of the people [the chief priests and elders and representatives of the Sanhedrin] if we today are examined [put on defense] concerning a good deed done to an impotent man [a cripple], by what means this man is made whole if [we are] forced like criminals to defend ourselves for doing good? be it known unto you all, and to all the people of Israel, that by the name of Jesus Christ of Nazareth, whom ye crucified, whom God raised from the dead, even in him doth this man stand before you whole." Thus boldly Peter accused them of having crucified Christ.

He is the stone which was set at Jerusalem by the builders, which was made the head of the corner, that is, the stone at the corner of the temple which supports and unites them. See Ps. 118:22 and Matthew 22:42-44.

"Is none other there salvation: for neither is there any other name under heaven, that is given among men, wherein we must be saved?" With these words Peter ended his witnessing for his Lord.

Sea Monsters

Each Season Brings Its Own Story Of Some Fearsome Sea Serpent

There must exist subterranean monsters of which we have no knowledge, for periodically reports from outlandish places reach us of fearsome creatures. The latest is a description from Papua of a sea-serpent with long, curled tufts like those of a boar. If the natives can capture one, the New South Wales zoo will give the public the greatest sensation of the year. Some men were sent to lasso a specimen which sported near the shore, but it escaped. It was about 15 feet long, greyish in color, with a snake-like head, huge mouth, and pale stripes under the jaw. The same creature, rose out of the water and poised itself to attack two fishermen, who frightened it away with shots, but not before they had noticed its vast round eyes and head.

"I suppose when you have been flying for a year or so it becomes second nature!"

"Surest thing you know. Why I'm getting so that I often feel a craving for worms and bird seed."

People of England paid more than \$25,000,000 last year for clothing made in other countries. 2168

Employment In Canada

Upward Trend Is Indicated In Returns Made By Firms

Employment in Canada, as indicated by bureau of statistics returns from 9,660 firms, showed a gain of 29,985 persons on June 1 as compared with May 1, the bureau reported. In comparison with June, 1935, an increase of 47,721 was shown in the number employed.

This advance, while larger than the gain recorded during the month of May last year, was smaller than the average seasonal gain in the period from 1920 to the present.

The report showed 963,513 on the payrolls of the co-operating firms. Compared with 940,218 at the beginning of May and 918,792 on June 1, 1935, the index of employment on June 1 stood at 102.0 compared with 99.5 in the preceding month and 97.6 on June 1, 1935. The index is based on the year 1926 as 100 and at 102.0 stood at the highest figure for June 1 since 1931.

Improvement was reported in manufacturing, particularly in the food and lumber divisions. In the non-manufacturing industries, there were important increases in logging, mining, communication, transportation, highway and railway construction and maintenance, services and trade. On the other hand, building construction was not so active.

The trend was favorable in four of the five economic areas. Firms in the prairie provinces employed the greatest number of extra workers.

Construction (especially railroad construction and maintenance), transportation, manufacturing and trade showed improvement in the prairie provinces.

Stand By The League

General Smuts Enunciates The Position Of South Africa

General Jan Smuts, minister of justice in the Union of South Africa, said in a recent speech that it would be "sheerest lunacy" for South Africa to quarrel with Great Britain.

He said the union would stand by the League of Nations until the very end, agreeing with the views on the league expressed by Prime Minister J. B. M. Hertzog.

General Smuts has expressed his opposition to dropping sanctions against Italy for the Ethiopian conflict.

"It would be sheerest lunacy to quarrel with England," General Smuts, a former prime minister, told an Afrikaander day meeting. "We do not possess a single ship able to ward off anti-aircraft carriers which could land enough planes on our shores to wipe out our large cities within a few hours."

"I am not referring to an imaginary danger but to a very real one. It is said we will be simply dragged into the next war in which England is involved but let me tell you that England knows South Africa wants to keep out of war, and also knows that South Africa has the right to decide her own course of action and the union will not declare war unless the people of South Africa through their own parliament have decided on that question."

Gen. Smuts said that South Africa constituted "an attractive bait for avaricious nations." He declared there was no doubt her position was becoming more dangerous.

Qualified For Prize

Italian Farm Handed Down In Family For 918 Years

Giuseppe Pierantoni, descendant of a family which has lived on the same farm for 918 years, has been awarded a prize by the Italian government. Records show that in 1018, when barons were still over-running the Italian peninsula, a peasant named Pierantoni reclaimed a plot of marshy land in Montebale, which has remained with and been cultivated by his family ever since. Last year the "Fedella Alla Terra" prize, as it is known, went to Antonio Castellani, who surrounded by his 19 children and grandchildren, was proved to be working the same land at Querciola, which his ancestors had worked for 709 years.

Not only does a bat have exceptional powers of sight at night, but fairly good vision in daylight.

WORKS PLAN AS A STIMULUS TO UNEMPLOYMENT

Ottawa.—Labor Minister Rogers announced conclusion of Dominion-provincial agreements under which at least \$30,000,000 will be spent this year "as a direct stimulus to employment." In addition to more than \$40,000,000 voted in supplementary estimates for federal works projects.

The new agreements for joint works on a 50-50 expenditure basis contain a mandatory clause providing at least 50 per cent of those employed on projects covered by the \$30,000,000 shall be taken from the relief rolls.

The minister made a simultaneous announcement that grants-in-aid to provinces for direct relief will be cut 10 per cent during July, August and September. He said this step had been decided in view of the "improvement in general employment and in anticipation of the reduction of relief rolls through the joint works program."

Mr. Rogers said operation of the mandatory clause in the Dominion-provincial joint works agreement would have the result of "reducing the relief burden of municipalities and would also make it possible to determine the direct effect of public works projects as an aid to the relief situation."

He said projects covered by the agreements will consist largely of highway construction, "which will be developmental in its ultimate effects through the stimulus it will afford to two of the major industries of the country, namely, the mining industry and the tourist trade."

He emphasized provision in the agreements that grants-in-aid shall be subject to quarterly review. "Before the next revision takes place in September," he said, "it is expected that the national employment commission will have carried out a re-registration of those on relief and that any new readjustment of the form and amounts of grants-in-aid will be based on an analysis of the actual relief situation in each of the provinces."

"The recent revisions have taken the form of horizontal percentage increases or decreases as applied to grants-in-aid which were in effect when the present government came into office last October."

This, he explained, meant that the changes might not meet adequately conditions in provinces where the employment situation had shown a retreat, and might be more than adequate for others which had experienced real improvement.

The 10 per cent reduction in direct relief grants for the three summer months, the minister explained, topped the 15 per cent reduction announced last April. However, he recalled, the grants were increased 75 per cent last December, so that even with the two subsequent reductions Dominion grants to the provinces still are substantially higher than they were a year ago.

"In provinces where national parks are located," he said, "provision has been made in the new agreements for construction or improvement of main highways leading to the parks from the international boundary. At the same time provision is being made for improvement of other international gateways to Canada in order to facilitate tourist travel."

"Through the department of mines arrangements have been made with several provinces for construction of roads into proved gold mining areas where developments have been retarded by lack of adequate communications. The Dominion government is paying two-thirds of the cost of construction of these roads."

Pays Surprise Visit

London.—The king paid a surprise visit to Portsmouth and inspected a battalion of the Middlesex regiment at the Victoria barracks at Southsea. His Majesty, who reviewed naval units and inspected the new "mosquito" fighting craft of the navy in gala ceremonies here, returned by automobile from Chichester, where he is staying with Lord Mountbatten. The troops were drawn up on the parade ground when the king arrived. Royal artillery units fired a salute.

May Visit Canada

President Roosevelt Hoped Of Visiting Governor-General Washington.—President Roosevelt may yet accept the invitation of the governor-general to visit him in Canada this summer.

Soon after Lord Tweedsmuir extended the invitation last April, asking Mr. Roosevelt to be his guest at Rideau hall in Ottawa. It was said here pre-election engagements would make such a presidential trip impossible.

However, Mr. Roosevelt said at a press conference he still was hopeful of visiting the governor-general at Quebec in August. The vice-regal summer residence is at the citadel in the ancient capital.

The present presidential schedule calls for Mr. Roosevelt to board the schooner Sewanna near Portland, Maine, around July 14 for a two-week cruise. It is expected he will visit the Roosevelt summer home on Campobello island, in New Brunswick waters, and a stop in Nova Scotia is said to be under contemplation.

If the trip to Quebec is decided upon, it is believed the president would travel there by train from the Maritimes.

World Wheat Surplus

Smallest In Nine Years Is Estimated Of U.S. Bureau

Washington.—The world wheat surplus was estimated by the United States bureau of agricultural economics at 289,000,000 bushels—the smallest in nine years.

This surplus as of July 1 in Argentina, Australia, Canada and the United States, the principal exporting nations, compared with 532,000,000 bushels a year ago, 741,000,000 in 1934 and 789,000,000—an all time peak—in the summer of 1931.

The bureau added the world carry-over also would be the smallest in nine years—a total of 635,000,000 bushels as of July 1 compared with 856,000,000 a year ago and 1,109,000,000 two years ago.

The United States carry-over was reported at 125,000,000 bushels, the smallest since July 1, 1928. This compared with 152,000,000 in 1935, 256,000,000 in 1934 and 393,000,000 on July 1, 1933 which was an all-time high.

Fast Torpedo Boat

King Edward Travels 40 Miles Per Hour In New Warcraft

Portsmouth, England.—The king, paying his first visit to the navy since his accession, spent half an hour aboard a torpedo motorboat capable of 60 miles an hour.

After inspecting the shore establishments at Portsmouth, the king boarded the new type of boat. The boat headed out across the harbor. As it increased in speed, great waves broke over it. The stern was so low in the water it appeared to be submerged.

Experts believe that these torpedo motorboats, of which 13 cost less than one destroyer, may prove the navy's answer to the air menace. Their high speed and small dimensions make it almost impossible to hit them with a bomb. Each boat has two torpedoes, depth charges and a number of machine guns. Each has quarters for a crew of five.

Celebration In London

Earl Of Willington Guest Of Honor At Canada Day Dinner

London.—"Canada Day" celebrations in London included a reception given by Mrs. Vincent Massey, wife of the Canadian high commissioner, which was attended by 3,000 guests, and a dinner at the Canada club in the evening at which the Earl of Willington, governor-general from 1926 to 1931, was the guest of honor.

In a speech at the dinner, which was presided over by Lord Greenwood, who is a native of Whitby, Ont., Lord Willington described the five years he had spent at Ottawa as the happiest in his life.

Canada, he said, had passed through a grievous time but had weathered the storm magnificently. Nearly \$1,250,000 is being spent in modernizing the railway stations in Doncaster, England.

RETIREES

Sir William Mulock, Chief Justice of Ontario, who, at the age of 92 years, has retired from public life.

Confesses To Theft Charges

Lawyer From Seaford, Ontario, Surrenders To California Police

Los Angeles.—John Joseph Huggard, Seaford, Ont., lawyer wanted on theft charges, has signed waiver of extradition and a confession. Detective Captain Jack Trainer said.

Huggard, who has been in Los Angeles one week living in a small hotel at Sixth and Hope streets, said the principal motive for his walking into the police station and confessing was "to pay the penalty for my offense" and because he was destitute.

Huggard said he left Seaford April 29 to 30, returned to New York a month, then went to Buffalo, stopped a night in Chicago and proceeded to Kansas City, Dallas and Los Angeles. He had been here one week.

In the statement taken by police Huggard was quoted as having "embezzled from \$30,000 to \$40,000 from a dozen different persons."

Zeppelin Changed Course

Came Via Montreal As Weather Conditions More Favorable

Montreal.—The German Zeppelin Hindenburg departed from her usual course on her trans-Atlantic flight last week and flew up the St. Lawrence river valley to Montreal before turning southward towards her base at Lakehurst, N.J.

The dirigible's commander wireless the newspaper Le Canada while over this city that the big ship came via Montreal because weather conditions were more favorable than over the Atlantic coast.

The Hindenburg was last sighted over Plattsburg, N.Y., 20 miles south of the international border.

Rate Has Been Reduced

Marine Insurance On Hudson Bay Route To Be Lower

Ottawa.—Reductions in marine insurance rates and a lengthening of the insurable navigation season on the Hudson Bay route have been announced by R. K. Smith, deputy minister of marine, coincident with a similar announcement in London.

Insurance rates on vessels equipped with gyro compass are reduced from 22s 6d per cent. (50 per 1000) on insured value to 17s 6d per cent. The change, Mr. Smith said, would mean the "cost of insurance will be substantially reduced."

The navigation season for minimum insurance rates is being extended by eight days, opening five days earlier and closing at the same time as last year. The date for imposition of surcharges for late departures from Churchill, however, has been set back three days, making an effective eight-day extension.

Last May, Hon. C. D. Howe, minister of marine, forecast the announcement in a statement to the House of Commons. He then worked out an estimate of the effect of the rate reduction and said a vessel of 5,000 tons equipped with gyro compass and valued at \$50,000 would pay \$625 for insurance against all risks on a Bay route trip this year whereas last year the same charges would have aggregated \$937.

Unreported For Twelve Days

Ship Of Sir Hubert Wilkins Finally Gives Position

Oslø, Norway.—The Norwegian liner Stavangerfjord reported to Oslo receipt of a message from the Wyatt Earp, exploration motor ship of Sir Hubert Wilkins, which has been unreported for 12 days.

The Wyatt Earp gave its position as 46 degrees north latitude and 40 degrees west longitude, the master of the liner reported.

Sir Hubert told the master he had been delayed but hoped to reach Norway, his destination, about mid-July.

Plans Have Been Approved

Arrangements Made For Welcome Of Canadians To France

Paris.—Plans for welcoming the thousands of Canadians who will visit France on the occasion of the unveiling by King Edward of the Canadian war memorial at Vimy were approved when the welcoming committee met under the chairmanship of Marshal Petain.

Albert Riviere, minister of pensions, outlined the program, which will be elaborated later by the secretary-general of the committee. It provides for public receptions at Paris, Rouen, Blois and Arras.

"FROM SEA TO SEA"

A relay of engines which pulled the Canadian Pacific Railway's 50th anniversary transcontinental train, left Montreal June 25th and arrived in Vancouver July 2nd. It carried the decorative adaptation of the Dominion Coat of Arms shown above, on the huge 2600 locomotives. In the place at the top appear the words "From Sea to Sea" and the figures "1856-1936". Red and white bunting covered the top of the cow-catcher and sides of the engine.

POWERS RALLY TO THE SUPPORT OF THE LEAGUE

Geneva.—Three of the world's largest powers rallied to the support of the League of Nations in the face of veiled hints of smaller powers at withdrawal.

The three were Great Britain, France and Soviet Russia. Speakers for the first two said their governments would not recognize Italy's annexation of Ethiopia and all voiced continued faith in the league's future.

Delegates from Canada and South Africa presented opposite views with respect to continuation of sanctions against Italy.

Speaking for Canada, Hon. Vincent Massey, high commissioner to London, said there would appear to be no practical alternative for Canada but to support discontinuance of sanctions.

In the view of the Canadian government "the continuance of ineffective economic pressure which would not secure the original objective, would be worse than useless."

It had been urged members of the league should definitely undertake whatever compulsion might be necessary, but it seemed clear there was no appreciable number of effective members who would be prepared to embark on such a course while there was uncertainty as to whether the objective might not be lost sight of in "very serious disturbances that might arise."

Charles T. Water, high commissioner for South Africa, declared 50 nations led by three of the most powerful in the world were about to declare their powerlessness to protect the weakest in their midst.

"The authority of the league about to come to naught, my government desires me to say here this renunciation by the most powerful members of the league of their collective decision can alone be interpreted as a surrender by them of authority of the league—not because of impotence to safeguard that authority but as a fatal denial of their ability to bear the sacrifice necessary for fulfillment of their obligations."

Eight Italian newspapermen, arrested for "creating a scandal" by heckling and cursing Emperor Haile Selassie when he addressed the assembly, were released from jail and immediately expelled from Switzerland.

(Italy, standing behind the newspapermen, ordered its minister to Switzerland to protest the arrests. The action of the eight was hailed in Italy as a gesture of patriotism.)

Delegates broke into an uproar when Haile Selassie, deposed emperor of Ethiopia, went before them to plead his cause against victorious Italy.

Retired On Pension

Veteran R.C.M.P. Officer Has Served Twenty-Three Years

Prince Albert, Sask.—Concluding 23 years service as a member of Canada's famous police force, Detective-Sergeant James S. Wood, in charge of the criminal investigation branch of the R.C.M.P. Prince Albert sub-division, has retired on pension from the force and on July 1 left with his family for Vancouver Island where they will make their future home.

Sergeant Wood has had a remarkably active career during the 43 years of his life, the last 23 being tacked with colorful episodes in connection with the duties of his office and his service overseas.

Had Few Accidents

Ontario's Record For Dominion Day Was Comparatively Good

Toronto.—Despite brilliant summer weather that attracted thousands to highways and beaches, Ontario looked back on a Dominion day unusually free from accidents.

Only two persons were killed, both in car accidents, and except for minor accidents that occurred while the province relaxed at its many playgrounds, the day passed with few mishaps to mar its general joyfulness.

Spruce Grove News.

Mr and Mrs W J Connolly left on Sunday morning, on a ten-day trip to Vancouver.

The Spruce Grove M. D. Councilors held their regular monthly meeting on Monday, the 6th.

The Grove's ball tossers played a game at Sand Hills on Monday, when a picnic was held.

Herman Ducholke is planning a motor trip to Banff.

Local cattlemen are getting their show cattle ready for the Edmonton Ex., that opens Monday next.

Mr N Bauhart is visiting with friends at the Coast.

Messrs Herman Loeblich and Clarence Brox were playing ball in the City, with the Arrowbasses team.

Indian Agent Laight, of Winterburn I.R. was up at Calahoo this week, paying treaty money to every man, woman and child on the Reserve.

There was an accident on the Hiway, east of town, on Sunday afternoon, when a car from Edson district had a front tire blow out, and the sedan turned over into the ditch. Mr and Mrs Wood and family of three were heading for the Calgary Stampede when the accident occurred. Miss Wood was driving the car at the time, and the latter was badly damaged.

For a big meal or a good lunch, try Jack Nichols, at the Hotel Restaurant.

Donkey Baseball.

Baseball on donkeys is the newest summer wrinkle to put in its appearance in Edmonton baseball, not only played on donkeys, but played by prominent business men on donkeys.

Brought to Edmonton by the Lions club, a troupe of thirteen donkeys will make its appearance the latter part of the month.

The idea of the game is that each player with the exception of the batter is to be mounted on a donkey. When and if the batter makes a strike he mounts one of the animals for a tour of the bases. All he has to do is persuade the donkey to travel the right way at the right time.

Bread Prices Due for a Rise

The continued rise in the price of wheat will mean a rise in bread prices in a short time, as flour prices usually follow the wheat market.

But there is said to be no immediate rise in price for bread, as it takes a boost of \$1 a barrel on flour to push bread up 1 cent per loaf.

"Technocracy"

Has the Answer to Economic Depression? was the subject of an address in Stony Plain Saturday night by Mr G. Koe. Explaining that technological advances have made it not only unnecessary but impossible for men to work, he stated that the old virtues of birth and application are virtues no longer.

"Men can be and are better fed on relief than they ever were when they worked," he declared, in discussing the fate of those unemployed thru the improvements of machinery.

"The machines will do the work. What we need is a new consuming device. We must have it or civilization will go down to wreck. We can't get it by manipulation of credit, currency, prices or politics."

Stony Plain and District.

Mr John Eynon left Friday with a motor party. After seeing the Calgary Stampede, the party intended going to Banff, and possibly on to B.C. points.

Mr Ken Smith, the popular paying teller at the local branch of the Canadian Bank of Commerce, has been transferred to the branch at Bawlf.

Mr Haycraft is the new teller at the Stony branch of the Canadian Bank of Commerce. Mr Fred Miller has been appointed Principal at the S.P.H., in succession to Miss Woods.

Mr W. L. Stewart, Detroit, has been visiting here this week with her brother, Ph. P. Miller.

Mr C. Solly Grant has returned from his motor trip to Bowmanville, Ont.

"Jerry the Bowman" has started operating his bus service on Sunday.

There was no ball game here on Sunday, owing to the non appearance of the team from Keep Hills.

Stony's ball players attended the sports day held up at Onoway on Wednesday. The Stony musicians played at the dance in the evening.

The Hardwick Departmental Store is now in the hands of the painters and decorators.

Mr Louis Alheim has moved his barbering outfit farther north on Main street, and is now located in the old P. O. building.

Farewell to Young Lady.

Miss Phyllis Bristow, who had been attending the S.P.H., left on Saturday for her home at Lely. This popular young lady was given a farewell party, previous to her departure, in the Pavilion at Edmonton Beach, by the many young friends she has made since coming here last September.

Ursel's Melody Four.

The people of Muir Lake Community were much in evidence at Stony's sports day last week, and their nimble young athletes were successful as prize winners in a number of the events. At the close of the day's sports here, they held a very successful dance in Community hall. That popular orchestra, Ursel's Melody Four, were on the job, as usual, and gave their best in providing first-class dance music. This well-known orchestra is much in demand for dances at the popular resorts.

Injured at Sawmill.

While engaged in operating the saw at his sawmill in the Gunn district, Mr Edward Moberg, well known here, suffered a fracture of the jaw and other injuries when a slab jumped from the carrier and struck him. He was taken to Edmonton, where his injuries were attended to. He is now doing as well as could be expected, under the circumstances.

Passengers on Trucks.

In reply to a number of protests against the enforcement of the new ruling of the Traffic Board, prohibiting the carrying of passengers on trucks, H. P. Keith, deputy minister of public works, issued the statement, declaring that insurance companies had refused to issue policies to cover passengers on trucks, and therefore special permits could not be issued.

The Traffic Act allows only the owner or his employee to ride on a truck. The Act does not apply to cabs.

Notice to Creditors and Claimants.

IN THE MATTER OF THE ESTATE OF JAMES C. WERNER, LATE OF THE TOWN OF STONY PLAIN, IN THE PROVINCE OF ALBERTA.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above-named James C. Werner, who died on the 28th day of May, 1930, are required to file with the Solicitor for the Executor by the 10th day of August, 1930, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

GEORGE J. BRYAN,
Solicitor for the Executor.

AUCTION SALE BILLS,

WELL GOT UP AND PRINTED AND ADVERTISING TOO, ARE ESSENTIAL IF YOU WISH YOUR SALE TO BE A SUCCESS. BRING YOUR LIST TO THE STONY PLAIN SUN

This Is Golf Week.

This summer the well-equipped golf bag will carry not only your golf clubs, but an umbrella to guard against sudden showers as well, says Christian Science Monitor. This bag, with a hollow cylinder in the center to conceal the umbrella, in this weather, was designed and patented by C. C. Delbel, of Akron, Ohio. "Now," continues C. S. M., "if some one would devise a scheme for fastening an umbrella on the shoulders as you play, a little storm wouldn't interrupt a game the slightest bit."

Mebbe ye no heerd the yin about the gentleman who had been spending a holiday at a Scottish seaside village noted for its golf links. The gentleman asked one of the caddies if he got much carrying in the winter time. "Nae, sir, nae," replied the caddie. "There's nae carrying in the winter time. Ye see it's this way: If it's no sun it's frost; if it's no frost, it's sun; if it's no sun, it's rain; if it's no rain, it's a fine day, it's the Sawbath."

Here's another yin. A golf professional, hired by a big department store to give lessons, was approached by two women. The p.m. asked one of the women if she wished to learn to play golf. "Oh, no!" replied the lady. "It's my friend who wants to learn. I learned yesterday."

A Golfing Argument.

Bill—"I'm telling you, Dick, you took 28."
Dick—"Why, you're mistaken, Bill, it was only 27. I kept close count."

Bill—"Alright, have it your own way! Now let us move on to the second hole, as I would like to finish the game by tomorrow."

Golf Amenities.

Two casual golf acquaintances were walking towards the green when they sighted two women coming over the hill.

"Here comes my wife with with some old bag she has picked up somewhere," said one of them.

"And here comes mine with another," retorted his friend, jolly.

Well, biddie, if you've read awa' down this far, mebbe ye'll like to ken this has been edited for ye by yer auld friend, Alastair Macalaster, MacGillachie FitzCracker, Laird of Skibo.

We writers may dig and toil And scratch our heads for more.

But some-body is sure to joke: "I've heard them jokes afore."
